Information Technology Intern NXGEN Payment Services Posted 03/06/2008

Job Number: 10742
Job Location: Whitefish, MT
Employment Dates: 5/19/2008 to 8/28/2008
Work Schedule: Full-Time
Salary: Paid-DOE

Job Description:

Our goal is to provide challenging real-world problems to students which will enhance their resume for future employers. We are located in Whitefish, MT. If you like to hike and fish and code this is the spot for you. Primary Responsibilities include: Maintaining and extending the rich web client of our CRM application. Assist in the conversion of legacy VB.net application to rich web client interface. Supplementing client-side development efforts for our merchant services applications and forms. Interacting directly and constructively with development staff, other teams, and field consultants. Developing detailed technical implementation plans. Writing and executing unit tests. Consulting with other teams and management to understand complex business problems. Ability to quickly analyze requirements and specifications, raise issues, develop detailed technical implementation plans, and code solutions. Contribute positive team feedback to advance our programming staff. Excellent attention to detail and a high-level of accountability. Ability to estimate development schedule for assigned features.

Qualifications:

A BS in Computer Science or working towards this degree (Junior or Senior). At least 1 year of real-world programming experience or equivalent. Familiarity with test-driven development practices. Familiarity with VB.net, Java, and J2EE is a plus. Understanding of and experience with object-oriented design and coding practices. Have an understanding of relational database concepts and SQL.

Application Instructions:

Email a cover letter and resume to : jswenson@nxgen.com

Application Deadline: 04/15/2008
